THE WORLD BEHIND YOUR CURTAINS

reddot winner 2021

FOREST DS® - DESIGN SYSTEM

The DS® curtain track system is for fans of a sleek curtain track. This manually operated curtain track system fits into any stylish interior with an eye for design.

The DS® system has the same core dimension as the Klick System (KS®). This makes it possible to use all KS® assembly components (except the end caps).
The height of the track is 11 mm, and the curved elevation of the profile has an ergonomically designed extension to it so that the brackets can be mounted out of sight. Giving you a clean almost recess finish to your system when being utilised in a ceiling fix scenario.

PRODUCT INFORMATION

- Elegant and aesthetically pleasing hand drawn track system.
- For all types of medium weight draperies (max.curtain weight 8kg per meter).
- Colours available: matt white, white, grey, anthracite, matt black, black.
- Available lengths in white: 4, 5, 6 & 7 meter (anthracite, matt white, matt black in 6 meter).
- Bendable, designer curtain track can be bent and reverse bent to a tight 10cm radius, or continuously curved using a 50cm radius.
- Matching assembly components for white, grey and black.
- Invisible ceiling brackets to fix track flush to ceiling available.
- Quick installation with "Smart Klick" brackets for wall and ceiling applications.
- Same brackets as used with Klick System.
- Heavy duty clickable carriers - UV protected - for smooth and easy traversing.
- Especially designed for use in combination with Forest Easyfold System for wave pleat application.
- Track finish: chromated powder coating with a factory applied patented dry lubricant.
- Warranty: 10 years.

APPLICATIONS

FOREST DS-XL®

With the DS-XL® Series, Forest offers curtain tracks that optimally combines design and functionality. The Design System XL gives every interior an extra visual appearance.

Stylish curtains deserve an elegant and fashionable curtain track. The DS-XL® Series provide a sleek finish and contribute to a unique design look at home or in any hotelroom.

Thanks to a symmetrical profile, the system can be mounted "blind" to the ceiling. This provides an extra sleek finish. The track is easy to mount by means of swivel supports or click supports.

The DS-XL® track system has been especially designed for use with our wave system, Forest Easyfold System. But it is also suitable with regular pleated curtain headings.

FOR USE IN

Hotels, offices, residences, boats, campers, planes or anywhere an efficient and elegant track system is required for curtains and drapes.

PRODUCT INFORMATION

- Elegant and aesthetical hand drawn and corded curtain track system.
- For all types of medium weight draperies.
- Quick and easy installation.
- Ceiling brackets and wall brackets available.
- Invisible ceiling brackets to fix track flush to ceiling available.
- Heavy duty carriers - uv protected - for smooth and easy traversing.
- Colours available: white, grey or anthracite with matching assembly components.
- Available length: standard stock size 6 meter (19.8").
- Especially designed for use in combination with our wave pleat system 'Forest Easyfold System' .
- Warranty: 10 years.
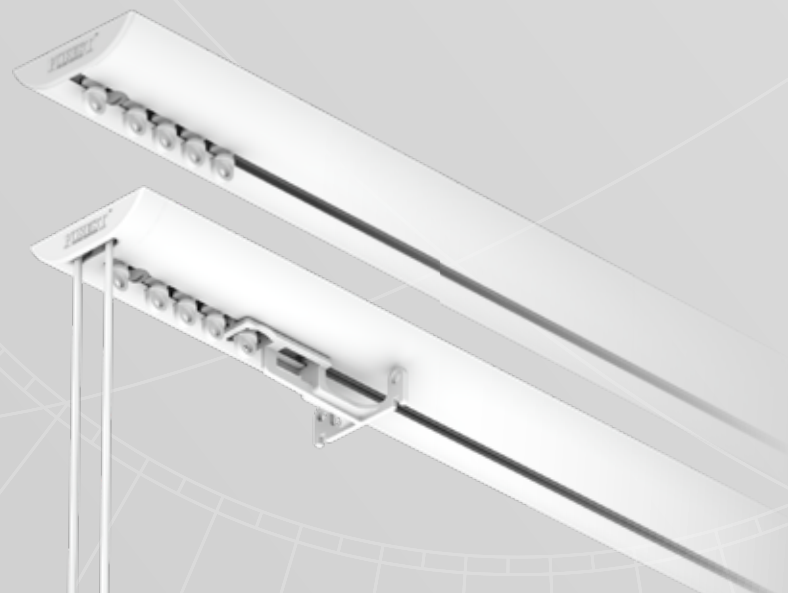

PROFILE

- Size: 60 x 15 mm
- Colours: white, grey, anthracite
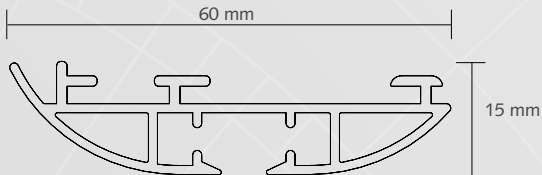

Easyflex tape application on DS-XL® track

FOREST EASYFOLD SYSTEM

The forest wave series are an Additional feature of the drapery Hardware systems of forest group. It complies fully with the Contemporary demand for Round and fluent shapes in Decorative interiors.

It offers new possibilities for Applications in large and High spaces, such as lobbies, entrees, reception areas, conference rooms, auditoriums, meeting rooms, Food and beverage outlets etc.

The system can be installed onto all forest manual, corded (except cks) and Motorised tracks and curtain rod systems and gives a modern and special folding design to the curtain.

Such a modern curtain heading system Combined with a suitable fabric is Guaranteed to be a real eye-catcher In every room.

EASYFLEX/EASYWAVE TOOL

With this tool you will be able to easily calculate your requirements of Easyflex carriers and Easyflex tape to obtain a beautiful folding curtain. Please scan the QR-code.

COLOUR OPTIONS

DS-XL® is available in three colours: white, grey and anthracite.

FOREST DS-XL® LED / Motorised

reddot winner 2021

This unique drapery system combines a stylish design with a unique way of lighting. Many designers will work with a lighting plan with three levels: High, especially if the ceiling is vaulted or has been finished with a special material; medium, which includes wall sconces; and low, which means floor lamps and other small lights. Our DS-XL® LED is the solution for a lighting plan on a higher level, integrating our track to create an overall glow on the ceiling.

The DS-XL® LED is an elegant system for all types of medium weight draperies. Available length up to 6 meter in 2 colours: timeless white and in a stylish anthracite finish, making it suitable to fit in every design.

Create privacy
It also offers the possibility to illuminate the backside and/or the curtain track itself enabling a higher level of privacy.

SUSTAINABLE LIGHTING

Traditional ways of lighting are very wasteful. Most of the power is wasted in the form of heat. This is why there has been a big push to change the environmental impact of lighting. Another benefit of LED lighting is sustainability and eco-friendliness. The system doesn't use toxic chemicals and it can last for years. It has a life span of approximately 30.000 hours.

PRODUCT INFORMATION

- Hand drawn or motorised curtain track system
- Designer track for lighting and curtain track combined.
- Colours available: white and anthracite.
- Especially designed for Forest Wave application.
- Simple electrical installation by means of clickable connectors.
- Ceiling brackets and wall brackets available.
- Supplied with 1 LED strip.
- LED Colour temperature: warm white 3000.
- Low energy consuming LED strip, eco friendly.
- Dimmable LED strips (120 LED's per meter).
- LED lifespan of 30.000 hours.
- No soldering, clickable components for easy installation without the need for an electrician.
- Power: 10 watt/mtr.
- Energy label A+.
- The DS-XL® LED Motorised system can be integrated into any building automation system.
- The DS-XL® LED motorised track system can only be used with a Forest Shuttle® S motor.
- Warranty: 10 years (LED-lighting 2 years).

RED DOT AWARD

The DS-XL® LED Motorised track system has been awarded for the Red Dot Award 2021 for its outstanding product design. The Red Dot Award is one of the most internationally known and sought-after awards in the design industry.

reddot winner 2021

LED
Motorised

Our wide range of controls make finding a fit for your home even easier; controlling the curtains by hand, remote or even by building automation system. With the remote you can control the curtains in any position you like. Controlling the motorised curtain system by your smartphone or tablet, you can create and schedule customised room scenes that allow your curtains to operate on their own throughout the day.

REMOTE CONTROL

We offer two types of RF remote controls: the EasyTouch and the Diamond Sense.
• The EasyTouch controls up to 6 systems, with the option to deactivate unused channels.
• The Diamond Sense is a 15- or 2-channel remote with an LED display. Systems can be operated manually or with the integrated timer. The LED display automatically lights up when your hand moves over it.
Both remotes have a range of up to 30 meters.

APP CONTROL VIA FOREST WIFI-DONGLE

With the Shuttle® Wi-Fi dongle, you can control your motorised curtains with your mobile device by the Forest Connect app or even by voice command with the easy integration in for example Google Home or Amazon Echo without the need for an additional hub or gateway.

APP CONTROL VIA FOREST WIRELESS CONNECTOR

The Forest Wireless Connector provides an easy solution to make Forest motorised curtains 'smart.' When combined with a smart plug, you can effortlessly control the curtains through a mobile app. Controlling the motorised curtains system by your smartphone or tablet, you can create and schedule customized room scenes that allow your curtains to operate on their own throughout the day.

If you prefer to use the Forest Connect App, you can opt for Forest's smart plug. If you wish to operate your curtains with Apple HomeKit, Amazon Alexa, or Google Assistant, you will need a compatible third-party smart plug that works with these smart home apps. This RF device can also be seamlessly integrated into the most common building management systems, including systems with dry contacts.
