FOREST BLIND SYSTEM - BS®

For a more streamlined look or when space is at a premium, roman blinds that stack neatly at the top of the window when retracted are the perfect solution. With the Blind System - BS® of Forest a sleek natural look is provided for your interior. Experience the simplicity of chain operation for Roman blinds. With an easy-to-use chain mechanism, adjusting the blinds to your desired position is effortless.

The Blind System - BS® is the most widely used and recognised roman blind in the industry. It comes with integrated velcro tape so that the fabric can be easily attached & removed. The system is always correctly alligned due to the twistlock on the cord roll support. For the ultimate convenience a motorised control option is possible. Operate the Blind System at the press of a button or by your smartphone. See for more info about motorised options check further down in this brochure.

PRODUCT INFORMATION

- Compact hand drawn roman blind system.
- For all types of light and medium weight draperies.
- Elegant shaped aluminium profile, with integrated Velcro hook tape.
- Application width: min. 38 cm & max 5.80 meter (19").
- Available height: 3.50 meter (11.5").
- Simple face-fix and top fix installation.
- Conic shaped drums; thus smooth and straight operation of the system is guaranteed.
- Self-braking endless chain control units.
  1:1 (fabric weight up to 3,5 kg)
  1:4 (fabric weight up to 7,5 kg)
- Total maximum fabric weight up to 7,5 kg.
- Colour available: white.
- Special Child Safety solution possible (1:4 & 1:4).
- Track finish: Aluminium powder coated.
- Warranty Manual System: 10 year.

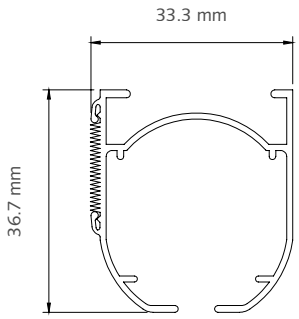
FOR USE IN

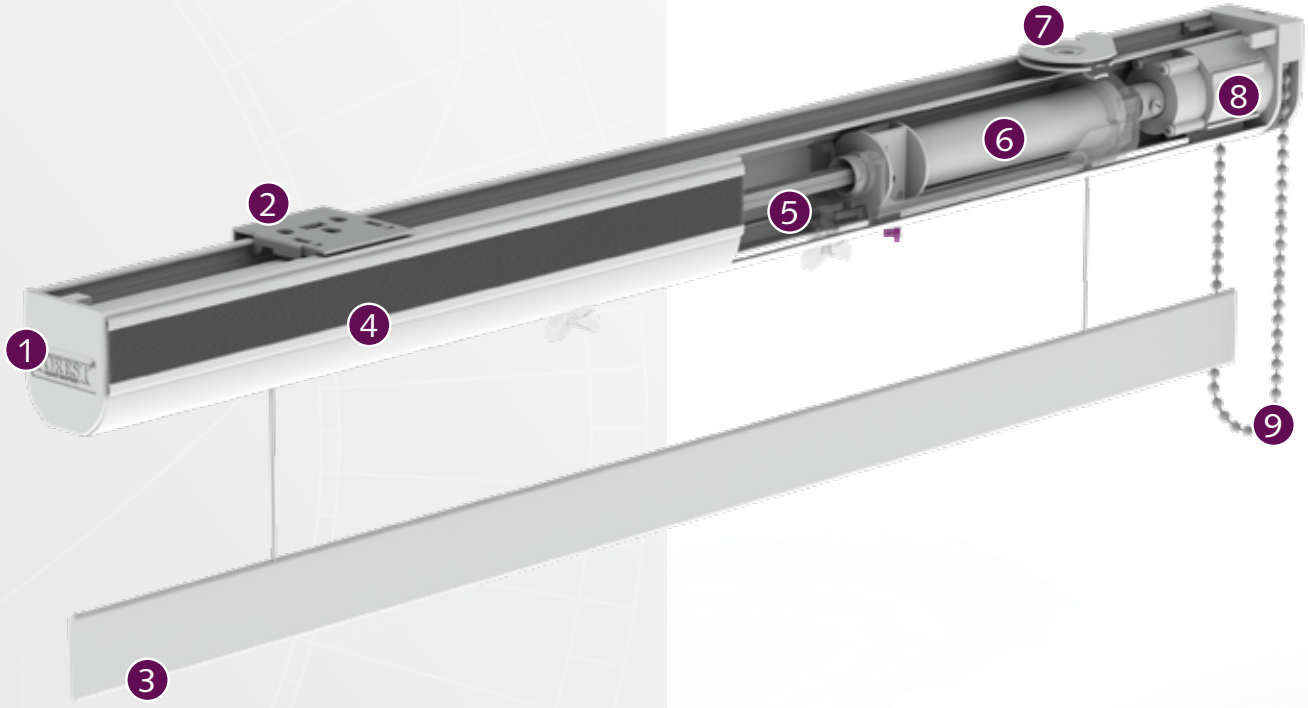
Hotels, offices, residences, boats or anywhere an efficient Velcro track system for roman shades is required.

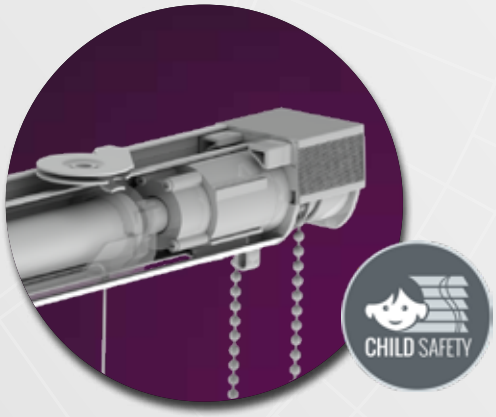
CONTROL OPTIONS

PROFILE

- Weight 409 gr/mtr
- Aluminium extrusion 6063 T5
- Size 33.3 x 36.7 mm (1.3" x 1.4")
- Colour available: white







1. BS Endcap
2. BS Smart Klick® Ceiling / Wall Bracket
3. Counterweight bar 6 x 20 mm.
4. BS Track incl. Velcro Hook Tape
5. BS Rod 5x5mm
6. BS Quicklock Cord Roll
7. BS Ceiling bracket, swivel
8. BS Control Unit 1:4
9. Chain

FOREST BLIND SYSTEM MAX - BS MAX®

To complement the manual range of the roman blind systems for heavier duty drapery, Forest introduces the Blind System Max®.

The Forest BS Max® is developed for taller windows and heavier fabrics. This roman blind system can go up to a height of 4.80 meter with a total weight of 13 kg. It comes with integrated velcro tape so that the fabric can be easily attached & removed.

PRODUCT INFORMATION

- Hand drawn roman blind system.
- For all types of medium and heavy weight draperies.
- Elegant shaped aluminium profile, with integrated Velcro hook tape.
- Application width: min. 38 cm & max 5.80 meter (19").
- Available height: 4.80 meter (15,75").
- Simple face-fix and top fix installation.
- Cords are easy to remove; very useful when washing or dry cleaning the fabric.
- Self-braking endless chain control units.
- Maximum fabric weight per cord roll: 4 kg and total system 13 kg.
- Colour available: white.
- Track finish: aluminium powder coated.
- 10 year warranty

FOR USE IN

Hotels, offices, residences, boats, campers, planes or anywhere an efficient Velcro track system for roman shades is required.

8. BS Max Control Unit 1:4
9. Chain

FOREST BLIND CONTRACT SYSTEM - BCS®

Another solution of Forest is the motorised roman blind 'BCS®-system', developed especially for taller window frames and heavier fabrics. The tubular motor in the system is 220 Volt and available in variable voltages as required. A powerful 121 Watt motor is standard, capable of lifting blinds of up to 13 kg; other motor types - capable of up to 26 kg - are available upon request. The cord coils can hold 5.5 meter of cord.

The Forest roman blind BCS® system is suitable for all current control systems and incorporates a unique, patented cord braking system. If, for any reason, the roll down action of a blind is obstructed, the motor automatically trips out to prevent the blind leaning and the cord breaking.

PRODUCT INFORMATION

- Motorised roman blind system.
- For all types of medium and heavy weight draperies.
- Elegantly shaped aluminium profile, with Velcro Hook Tape
- Available width: 5.80 meter (19").
- Application width: min. 65 cm & max 5.50 meter (18").
- Simple and quick installation with Smart Klick® bracket.
- Cords are easy to remove; very useful when you want to wash or dry cleaning the fabric.
- Can be controlled by wall switch, remote control (high frequency).
- Easy to connect to building automation systems.
- Easy to connect with third party Apps (Apple Homekit or Google Assistant) by the Forest Wireless Connector.
- Cord Drums can be placed on every position in the profile.
- Maximum fabric weight per cord roll: 4 kg.
- Tubular motor also available with internal Multi receiver and electronic limit setting.
- Track finish: aluminium powder coated.
- Warranty Manual System: 10 year.
- Warranty Motorised System: 5 year.

FOR USE IN

Domestic and/or project market, or at any location where a high quality and smooth operated motorized blind system is requested.

Control4 *

LOXONE *

LUTRON *

* Only works with actor.

Forest BCS® is compatible with many other Building Automation systems, thanks to its modular construction. A competitive advantage over other motorised drapery systems in the world!

CONTROL OPTIONS

Our wide range of controls make finding a fit for your home even easier; controlling the curtains by hand, remote or even by building automation system. With the remote you can control the roman blinds in any position you like. Controlling the motorised roman blind system by your smartphone or tablet, you can create and schedule customised room scenes that allow your roman blinds to operate on their own throughout the day.

REMOTE CONTROL

We offer two types of RF remote controls: the EasyTouch and the Diamond Sense.

- The EasyTouch controls up to 6 systems, with the option to deactivate unused channels.
- The Diamond Sense is a 15- or 2-channel remote with an LED display. Systems can be operated manually or with the integrated timer. The LED display automatically lights up when your hand moves over it.

Both remotes have a range of up to 30 meters.

APP CONTROL VIA FOREST WIFI-DONGLE

With the Shuttle® Wi-Fi dongle, you can control your motorised roman blinds with your mobile device by the Forest Connect app or even by voice command with the easy integration in for example Google Home or Amazon Echo without the need for an additional hub or gateway.

APP CONTROL VIA FOREST WIRELESS CONNECTOR

The Forest Wireless Connector provides an easy solution to make Forest motorised roman blinds 'smart.' When combined with a smart plug, you can effortlessly control the curtains through a mobile app. Controlling the motorised roman blind system by your smartphone or tablet, you can create and schedule customized room scenes that allow your roman blinds to operate on their own throughout the day.

Scan for more info

If you prefer to use the Forest Connect App, you can opt for Forest's smart plug.
If you wish to operate your curtains with Apple HomeKit, Amazon Alexa, or Google Assistant, you will need a compatible third-party smart plug that works with these smart home apps. This RF device can also be seamlessly integrated into the most common building management systems, including systems with dry contacts.

BUILDING AUTOMATION / HOTEL CONTROL

The BCS® System can be connected to any Building Automation system, by relay control.
